Home-Start Birmingham Central and South-West is an independent charity working within Home-Start Birmingham Consortium (HSBC). We face a growing demand for our services and are required to work within increasingly rigorous financial constraints. An important part of our work is attracting funds and ensuring they are used to support our mission in the most effective way. We seek a Trustee to join our Board.

What difference will you make?

Our organisation provides a vital support system to local families in need. An effective Trustee Board is essential to achieve the organisation's goals now and into the future.
